DETAILED ACTION

Election/Restrictions

Newly submitted claims 51-86 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: the elected invention drawn to a **stent** including a biological agent secured to the stent by a coating compound including at least one radiation induced cross-linking as recited in rejected claim 1. New claims 51-86 are directed to a **graft** including a biological compound selected from a group of Trepidil, GM-CSF and mixture thereof secured to the graft by an intermediate compound including a plurality of radiation-induced cross-links. The newly claimed invention of a graft and a compound selected from a group of Trepidil, GM-CSF and mixture thereof are considered as new claimed invention, because the graft, the compound of Trepidil and GM-CSF as now claimed in claims 51-86 have not introduced in the elected invention as recited in the canceled claims 1-50.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 51-86 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
